

KAREN PAK OPPENHEIMER

STRATEGIC ADVISOR

As a strategic advisor at the Institute for Transformative Technologies, Karen will focus on building ITT's wide-ranging portfolio, and help implement its healthcare delivery model in developing regions.

Karen has worked as a thought partner for global impact organizations, and has expertise in business development, and implementation of technology-enabled healthcare delivery services.

She is an experienced healthcare entrepreneur, who spent nearly a decade at the World Health Partners, a global non-profit that uses technology and market-based approaches to bring healthcare within walkable distance in India and East Africa.

Prior to joining WHP, she served in multiple roles at public as well as private sector organizations, including the Lawrence Livermore National Laboratory, Oracle Corporation, and the United Nations Population Fund in China.

Karen holds a Bachelor of Science in chemical engineering from Johns Hopkins University, a Master of Science in biotechnology from Northwestern University, and Master of Public Health from the University of California, Berkeley.
